

## ME-PRO comparative qualities - Protein sources

Protein source	Protein % (as fed)	Digestibility	Fat %	Ash %	Fiber %	Available P
 ME-PRO®	73.40 %	>99.90%	.85%	1.30%	5.40%	90%
Menhaden meal	65.30%	90.00%	8.40%	14.90%	>1.00%	51%
Anchovy meal	65.00%	94.00%	9.00%	16.00%	>1.00%	70%
Sardine meal	65.70%	90.00%	9.00%	16.10%	>1.00%	67%
Poultry by-product meal	66.00%	88.00%	13.40%	11.70%	1.30%	50%

SOURCES: Published and generally accepted data; for general reference only as these protein sources are naturally occurring, involve natural metabolic processes and can have variances due to many factors. ME-PRO® is manufactured to high standards however and the data above can be seen as reliable; performance standards may well improve upon stated. Please always reference the newest ME-PRO "Spec Sheet" as published on the websites of MEProPowered.com and PrairieAquaTech.com.
